YOUR PASSPORT TO RELAXATION

Plug in to a backyard staycation with Getaway Hot Tubs®, your *passport* to relaxation.

Getaway Hot Tubs make owning a relaxing hot tub exactly what it should be: stress free. This all-new product from Master Spas is affordable and doesn't require special electrical, plumbing or equipment for installation*. With a Getaway Hot Tub, your dream staycation is only moments away.

Getaway Hot Tubs are quick & easy to enjoy:

1. Select a location
2. Add water
3. Plug in to any dedicated 15 Amp, 120 Volt outlet*

In addition to a quick and easy setup, Getaway Hot Tubs also deliver:

RELAXATION Unwind in the privacy and comfort of your own backyard. Getaway Hot Tubs are the perfect excuse to escape and rejuvenate.

HYDROTHERAPY Relieve muscle aches and pains with strategically placed jets that melt away the stress of the day.

QUALITY Master Spas' thorough quality control process ensures that quality is found in every inch of a Getaway Hot Tub. From the unibody construction of high-density polyethylene, which produces a strong, lightweight and scratch-resistant hot tub, to the high quality controls from industry leader Balboa Water Group, your hot tub is both durable and hassle free.

CLEAN WATER All Getaway Hot Tubs feature patent-pending EcoPur® Charge Master Core Technology that keeps the water sparkling clean and assures that the quality of your water is superior to all industry standards. Best of all, this means you can spend your time enjoying your hot tub, not worrying about maintenance.

ENVIRONMENTALLY FRIENDLY Master Spas uses Icynene foam technology, which allows foam to be sprayed without ozone-destroying gases or gas emission hazards.

ENERGY EFFICIENT Full foam insulation maximizes heat retention and temperature control, which results in lower energy costs. Every Getaway Hot Tub meets stringent energy efficiency regulations.

PORTABLE Lightweight design means easy to move – either from one house to another, or various places around your yard if you re-landscape or make other changes, such as adding a deck.

CERTIFIED Getaway Hot Tubs meet strict UL standards and are produced by Master Spas, a Trade Certified manufacturer of hot tubs and swim spas.

* On select models.

Ahhh. It's hard to beat the calm and comfort of a Getaway Hot Tub.

Whether you're looking to host gatherings, or simply soak your sore muscles away, we have a variety of sizes to choose from. Getaway Hot Tubs offers five affordable and easy-to-maintain models, including two plug and play models, with features typically reserved for more expensive hot tubs, like backlit cupholders and lighted waterfalls*.

BAR HARBOR LE

Everything you need in a hot tub, the Bar Harbor LE provides plenty of seating including a lounger. Enjoy delightful features such as 40 therapeutic jets, backlit cupholders and a cascading waterfall.

MASTER SPAS CARES FOR KIDS

Master Spas and our dealers were part of building a new elementary school in 2013, and a new high school in 2018 for the NAZ Children's Centre in Rose Hall, Jamaica. This specialized Christian school does an outstanding job educating children as well as working with children with developmental problems. With every Master Spas swim spa sold, a donation will be made to the NAZ Children's Centre Scholarship Fund.

In our hometown, we are honored to partner with the Crossing School of Business and Entrepreneurship, a faith-based high school that turns at-risk youth into tomorrow's leaders. Master Spas provides operational space for vocational training and a micro business.

MASTER SPAS CARES FOR CURES

Master Spas is pleased and proud to assist two foundations dedicated to finding and funding the cures for life-hindering diseases.

Along with the Lupus Foundation of America, we have initiated a campaign to help raise awareness and find a cure for this debilitating disease that affects more than 1.5 million Americans. Part of the profit from each "Lights for Lupus" spa will go to the Lupus Foundation. Together, we can fund and find the cure.

Master Spas has joined forces with the Vera Bradley Foundation for Breast Cancer to eradicate breast cancer, a life-threatening disease, by providing financial support for research and research-related projects.
